Abbs, James H., The Influence of the Gamma Motor System on Jaw Movements during Speech: 16, June, 175-200.

Abbs, James H., and Bruce N. Gilbert, A Strain Gage Transduction System for Lip and Jaw Motion in Two Dimensions: Design Criteria and Calibration Data: 16, June, 248-256.

Abbs, James H., and Ronald Netsell, An Interpretation of Jaw Acceleration during Speech as a Muscle Forcing Function: 16, September, 421-425.

Adams, Martin R., Jeffrey I. Lewis, and Thomas E. Besozzi, The Effect of Reduced Reading Rate on Stuttering Frequency: 16, December, 671-675.

Aseltine, Suzanne, *see* Sheehan, Joseph G., et al.

Beasley, Daniel S., and Daun C. Beasley, Auditory Reassembly Abilities of Black and White First- and Third-Grade Children: 16, June, 213-221.

Beasley, Daun C., *see* Beasley, Daniel S.

Beedle, Randall K., and Earl R. Harford, A Comparison of Acoustic Reflex and Loudness Growth in Normal and Pathological Ears: 16, June, 271-281.

Behnke, Charles R., *see* Lankford, James E.

Belmore, N. Fargo, Diane K. Port, Richard L. Mobley, and Violet E. Goodman, The Development of Auditory Feedback Monitoring: Delayed Auditory Feedback Studies on the Vocalizations of Children Aged Six Months to 19 Months: 16, December, 709-720.

Bennett, Suzanne, and Bernd Weinberg, Acceptability Ratings of Normal, Esophageal, and Artificial Larynx Speech: 16, December, 608-615.

Berry, Mary D., and Robert L. Erickson, Speaking Rate: Effects on Children's Comprehension of Normal Speech: 16, September, 367-374.

Besozzi, Thomas E., *see* Adams, Martin R.

Beving, Barbara, and Roy E. Eblen, "Same" and "Different" Concepts and Children's Performance on Speech Sound Discrimination: 16, September, 513-517.

Bishop, Milo E., Robert L. Ringel, and Arthur S. House, Orosensory Perception, Speech Production, and Deafness: 16, June, 257-266.

Black, F. William, Use of the Leiter International Performance Scale with Aphasic Children: 16, September, 530-533.

Black, John W., The "Phonemic" Content of Backward-Reproduced Speech: 16, June, 165-174.

Bloodstein, Oliver, *see* Helmreich, Helaine Gewirtz.

Bloodstein, Oliver, *see* Seidel, Alida, et al.

Bloom, Sister Charleen Marie, and Franklin H. Silverman, Do All Stutterers Adapt?: 16, September, 518-521.

Bloom, Sister Charleen Marie, *see* Silverman, Franklin H.

Bookshester, Joyce, *see* Locke, John L.

Brown, W. S., Jr., Robert E. McGlone, and William R. Proffit, Relationship of Lingual and Intraoral Air Pressures during Syllable Production: 16, March, 141-151.

Byers, Vincent W., Initial Consonant Intelligibility by Hearing-Impaired Children: 16, March, 48-55.

Carhart, Raymond, *see* Tillman, Tom W., et al.

Carpenter, Robert L., and David R. Rutherford, Acoustic Cue Discrimination in Adult Aphasia: 16, September, 534-544.

Personality, Improvement, and Regression in Stuttering Therapy, David Prins and Michele Miller: 16, December, 685-690.

The "Phonemic" Content of Backward-Reproduced Speech, John W. Black: 16, June, 165-174.

Prevalence of Speech Problems in Junior and Senior High Schools, Susan Kay Gillespie and Eugene B. Cooper: 16, December, 739-743.

A Program for the Initial Stages of Fluency Therapy, Richard A. Culatta and Herbert Rubin: 16, December, 556-568.

Reflex Contraction of Middle-Ear Muscles Secondary to Stimulation of Laryngeal Nerves, Gerald N. McCall and Daniel D. Rabuzzi: 16, March, 56-61.

Relationship of Lingual and Intraoral Air Pressures during Syllable Production, W. S. Brown, Jr., Robert E. McGlone, and William R. Proffit: 16, March, 141-151.

Release from Multiple Maskers in Elderly Persons, Tom W. Tillman, Raymond Carhart, and Sheina Nicholls: 16, March, 152-160.

A Reply to Conture's "Comment on 'Effect on Stuttering of Changes in Audition,'" M. E. Wingate: 16, December, 754.

A Reply to Kresheck's "Comment on 'Stability and Validity of Two Measures of Intelligence Used with Children Whose Language Development Is Delayed,'" Paul S. Weiner: 16, June, 320.

"Same" and "Different" Concepts and Children's Performance on Speech Sound Discrimination, Barbara Beving and Roy E. Eblen: 16, September, 513-517.

Selected Aspects of the Development of English Morphology in Black American Children of Low Socioeconomic Background, Andrya L. H. Ramer and Norma S. Rees: 16, December, 569-577.

Sentence Comprehension in Two Age Groups of Children as Related to Pause Position or the Absence of Pauses, Joseph L. LaBelle: 16, June, 231-237.

Short-Term Habituation of the Infant Auditory Evoked Response, Michael F. Dorman and Robert Hoffman: 16, December, 637-641.

Short-Term Memory and Language Skills in Articulation-Deficient Children, John H. Saxman and Jon F. Miller: 16, December, 721-730.

Some Correlates of Speech Coding in the Short-Term Memory of the Deaf, R. Conrad: 16, September, 375-384.

Speaking Rate: Effects on Children's Comprehension of Normal Speech, Mary D. Berry and Robert L. Erickson: 16, September, 367-374.

Spontaneous Recovery of Nonstutterers' Disfluency following Adaptation, Franklin H. Silverman and Sister Charleen Marie Bloom: 16, September, 452-455.
Spread-of-Masking Effects on Pure Tones and Several Speech Stimuli, Richard H. Wilson, Richard W. Stream, and Donald D. Dirks: 16, September, 385-396.
The Standardization of Tests: Criteria and Criticisms, Paul S. Weiner and William C. Hoock: 16, December, 616-626.
A Strain Gage Transduction System for Lip and Jaw Motion in Two Dimensions: Design Criteria and Calibration Data, James H. Abbs and Bruce N. Gilbert: 16, June, 248-256.
Stuttering Consistency in Varied Contexts, C. E. Hamre and M. E. Wingate: 16, June, 238-247.
Stuttering and Disfluency as Two Reliable and Unambiguous Response Classes, James D. MacDonald and Richard R. Martin: 16, December, 691-699.
Temporary and Permanent Threshold Shifts Produced by Nine-Day Exposure to Noise, John H. Mills: 16, September, 426-438.
Threshold Shifts Produced by Exposure to Noise in Chinchillas with Noise-Induced Hearing Losses, John H. Mills: 16, December, 700-708.
Use of the Leiter International Performance Scale with Aphasic Children, F. William Black: 16, September, 530-533.
Use of Revision by Elementary-School Stutterers and Nonstutterers during Oral Reading, Franklin H. Silverman and Dean E. Williams: 16, December, 584-585.

Subject Index

Hearing

Anatomy and Physiology

Reflex Contraction of Middle-Ear Muscles Secondary to Stimulation of Laryngeal Nerves, Gerald N. McCall and Daniel D. Rabuzzi: 16, March, 56-61.

Audiology

Bacteriology of and Cleaning Methods for Stock Earmolds, James E. Lankford and Charles R. Behnke: 16, September, 325-329.
Bone-Conduction Threshold Sensitivity in Relation to Mastoid Sclerosis, Joseph B. Chaiklin and Nicholas Schiavetti: 16, September, 360-366.
Combined Effects of Recovery Period and Stimulus Intensity on the Human Auditory Evoked Vertex Response, David A. Nelson and Frank M. Lassman: 16, June, 297-308.
A Comparison of Acoustic Reflex and Loudness Growth in Normal and Pathological Ears, Randall K. Beedle and Earl R. Harford: 16, June, 271-281.
Computerized Pure-Tone Audiometric Procedures, Thomas J. Wood, Walter W. Wittich, and Robert B. Mahaffey: 16, December, 676-684.
Equivalency of CID and Revised CID Sentence Lists, Thomas G. Giolas and Joseph R. Duffy: 16, December, 549-555.
Initial Consonant Intelligibility by Hearing-Impaired Children, Vincent W. Byers: 16, March, 48-55.
Investigation of the Response Foils of the Modified Rhyme Hearing Test, James C. Nixon: 16, December, 658-666.
Loudness Growth under Masking: Relation to True Sensorineural Impairment, Alan M. Richards: 16, December, 597-607.
Release from Multiple Maskers in Elderly Persons, Tom W. Tillman, Raymond Carhart, and Sheina Nicholls: 16, March, 152-160.

Deafness

Deaf Children's Acquisition of the Passive Voice, D. J. Power and S. P. Quigley: 16, March, 5-11.
The Development of Semantic Associations in Profoundly Deaf Children, Ryan D. Tweney and Harry W. Hoemann: 16, June, 309-318.

Discrimination of Formant Frequency Transitions in Synthetic Vowels, Ellen Martin Danaher, Mary Joe Osberger, and James M. Pickett: 16, September, 439-451.
Hearing-Impaired Children's Comprehension and Production of Syntax in Oral Language, Lucille M. Presnell: 16, March, 12-21.
Initial Consonant Intelligibility by Hearing-Impaired Children, Vincent W. Byers: 16, March, 48-55.
Orosensory Perception, Speech Production, and Deafness, Milo E. Bishop, Robert L. Ringel, and Arthur S. House: 16, June, 257-266.
Some Correlates of Speech Coding in the Short-Term Memory of the Deaf, R. Conrad: 16, September, 375-384.

PSYCHOACOUSTICS

Acoustic Cue Discrimination in Adult Aphasia, Robert L. Carpenter and David R. Rutherford: 16, September, 534-544.
Auditory Assembly of Segmented Sentences by Children, Gordon H. Schuckers, Thomas H. Shriner, and Raymond G. Daniloff: 16, March, 116-127.
Combined Effects of Recovery Period and Stimulus Intensity on the Human Auditory Evoked Vertex Response, David A. Nelson and Frank M. Lassman: 16, June, 297-308.
Decay of Temporary Threshold Shift in Noise, John H. Mills, Seija A. Talo, and Gloria S. Gordon: 16, June, 267-270.
The Development of Auditory Feedback Monitoring: Delayed Auditory Feedback Studies on the Vocalizations of Children Aged Six Months to 19 Months, N. Fargo Belmore, Diane K. Port, Richard L. Mobley, and Violet E. Goodman: 16, December, 709-720.
Developmental Comparison of Vowels and Consonants in Dichotic Listening, Harold Goodglass: 16, December, 744-752.
Discrimination of Formant Frequency Transitions in Synthetic Vowels, Ellen Martin Danaher, Mary Joe Osberger, and James M. Pickett: 16, September, 439-451.
Effect of Alcohol on the Early and Late Components of the Averaged Electroencephalic Response to Clicks, Carol McRandle and Robert Goldstein: 16, September, 353-359.
Influence of Background Noise on the Early Components of the Averaged Electroencephalic Response to Clicks, Linda Lou Smith and Robert Goldstein: 16, September, 488-497.
Investigation of the Response Foils of the Modified Rhyme Hearing Test, James C. Nixon: 16, December, 658-666.
Loudness Growth under Masking: Relation to True Sensorineural Impairment, Alan M. Richards: 16, December, 597-607.
Release from Multiple Maskers in Elderly Persons, Tom W. Tillman, Raymond Carhart, and Sheina Nicholls: 16, March, 152-160.
Short-Term Habituation of the Infant Auditory Evoked Response, Michael F. Dorman and Robert Hoffman: 16, December, 637-641.
Spread-of-Masking Effects on Pure Tones and Several Speech Stimuli, Richard H. Wilson, Richard W. Stream, and Donald D. Dirks: 16, September, 385-396.
Temporary and Permanent Threshold Shifts Produced by Nine-Day Exposures to Noise, John H. Mills: 16, September, 426-438.
Threshold Shifts Produced by Exposure to Noise in Chinchillas with Noise-Induced Hearing Losses, John H. Mills: 16, December, 700-708.

OTHER

Auditory Perception of Rhyming in Kindergarten Children, June D. Knafle: 16, September, 482-487.
Auditory Reassembly Abilities of Black and White First- and Third-Grade Children, Daniel S. Beasley and Daun C. Beasley: 16, June, 213-221.
Bacteriology of and Cleaning Methods for Stock Earmolds, James E. Lankford and Charles R. Behnke: 16, September, 325-329.
Communication Skills in Five-Year-Old Children with High-Risk Neonatal Histories, Carol H. Ehrlich, Esther Shapiro, Bud D. Kimball, and Muriel Huttner: 16, September, 522-529.
Computerized Pure-Tone Audiometric Procedures, Thomas J. Wood, Walter W. Wittich, and Robert B. Mahaffey: 16, December, 676-684.

Dialect Proficiency and Auditory Comprehension in Standard and Black Nonstandard English, Betty B. Levy and Harold Cook: 16, December, 642-649.
Effect of Alcohol on the Early and Late Components of the Averaged Electroencephalic Response to Clicks, Carol McRandle and Robert Goldstein: 16, September, 353-359.
Effects of Communication Failure on Speaker and Listener Behavior, Thomas M. Longhurst and Gerald M. Siegel: 16, March, 128-140.
Perceiving Syllables and Remembering Phonemes, Ronald A. Cole: 16, March, 37-47.
Some Correlates of Speech Coding in the Short-Term Memory of the Deaf, R. Conrad: 16, September, 375-384.
The Standardization of Tests: Criteria and Criticisms, Paul S. Weiner and William C. Hoock: 16, December, 616-626.

Language

Aphasia

Acoustic Cue Discrimination in Adult Aphasia, Robert L. Carpenter and David R. Rutherford: 16, September, 534-544.
Aphasic Comprehension of Time Spacing, Joseph G. Sheehan, Suzanne Aseltine, and Allan E. Edwards: 16, December, 650-657.
Effects of Fatigue Produced by Isokinetic Exercise on the Communication Ability of Aphasic Adults, Robert C. Marshall and Philip S. King: 16, June, 222-230.
Oral Sensation and Perception in Apraxia of Speech and Aphasia, John C. Rosenbek, Robert T. Wertz, and Frederic L. Darley: 16, March, 22-36.
Use of the Leiter International Performance Scale with Aphasic Children, F. William Black: 16, September, 530-533.

Language Development

Children's Recall of Approximations to English, Elizabeth Carrow and Michael Mauldin: 16, June, 201-212.
Comment on "Stability and Validity of Two Measures of Intelligence Used with Children Whose Language Development is Delayed," Janet Kresheck: 16, June, 319.
Comprehension of Linguistic Concepts Requiring Logical Operations by Learning-Disabled Children, Elisabeth H. Wiig and Eleanor M. Semel: 16, December, 627-636.
Deaf Children's Acquisition of the Passive Voice, D. J. Power and S. P. Quigley: 16, March, 5-11.
The Development of Base Syntax in Normal and Linguistically Deviant Children, Donald M. Morehead and David Ingram: 16, September, 330-352.
Development of Phrase Structure Rules Involved in Tag Questions Elicited from Children, Carl O. McGrath and Luvern H. Kunze: 16, September, 498-512.
Developmental Comparison of Vowels and Consonants in Dichotic Listening, Harold Goodglass: 16, December, 744-752.
Hearing-Impaired Children's Comprehension and Production of Syntax in Oral Language, Lucille M. Presnell: 16, March, 12-21.
A Reply to Kresheck's "Comment on 'Stability and Validity of Two Measures of Intelligence Used with Children Whose Language Development Is Delayed,'" Paul S. Weiner: 16, June, 320.
Selected Aspects of the Development of English Morphology in Black American Children of Low Socioeconomic Background, Andrya L. H. Ramer and Norma S. Rees: 16, December, 569-577.
Sentence Comprehension in Two Age Groups of Children as Related to Pause Position or the Absence of Pauses, Joseph L. LaBelle: 16, June, 231-237.

Other

Auditory Assembly of Segmented Sentences by Children, George H. Schuckers, Thomas H. Shriner, and Raymond G. Daniloff: 16, March, 116-127.
Auditory Reassembly Abilities of Black and White First- and Third-Grade Children, Daniel S. Beasley and Daun C. Beasley: 16, June, 213-221.

Children's Phonetic Learning in the Laboratory: Judgmental or Real?, John L. Locke and Joyce Bookshester: 16, December, 667-670.

Communication Skills in Five-Year-Old Children with High-Risk Neonatal Histories, Carol H. Ehrlich, Esther Shapiro, Bud D. Kimball, and Muriel Huttner: 16, September, 522-529.

The Development of Semantic Associations in Profoundly Deaf Children, Ryan D. Tweney and Harry W. Hoemann: 16, June, 309-318.

Dialect Proficiency and Auditory Comprehension in Standard and Black Nonstandard English, Betty B. Levy and Harold Cook: 16, December, 642-649.

Effects of Communication Failure on Speaker and Listener Behavior, Thomas M. Longhurst and Gerald M. Siegel: 16, March, 128-140.

Perceiving Syllables and Remembering Phonemes, Ronald A. Cole: 16, March, 37-47.

Selected Aspects of the Development of English Morphology in Black American Children of Low Socioeconomic Background, Andrya L. H. Ramer and Norma S. Rees: 16, December, 569-577.

Short-Term Memory and Language Skills in Articulation-Deficient Children, John H. Saxman and Jon F. Miller: 16, December, 721-730.

The Standardization of Tests: Criteria and Criticisms, Paul S. Weiner and William C. Hoock: 16, December, 616-626.

Speech

Anatomy and Physiology

Computer-Assisted Measurement System for X-Ray Films of the Vocal Tract, Paul Mermelstein and D. J. Maclean: 16, June, 282-285.

Forward Coarticulation of Velar Movement at Marked Junctural Boundaries, Michael McClean: 16, June, 286-296.

The Influence of the Gamma Motor System on Jaw Movements during Speech: A Theoretical Framework and Some Preliminary Observations, James H. Abbs: 16, June, 175-200.

An Interpretation of Jaw Acceleration during Speech as a Muscle Forcing Function, James H. Abbs and Ronald Netsell: 16, September, 421-425.

Kinematics of the Chest Wall during Speech Production: Volume Displacements of the Rib Cage, Abdomen, and Lung, Thomas J. Hixon, Michael D. Goldman, and Jere Mead: 16, March, 78-115.

Labial and Mandibular Dynamics during the Production of Bilabial Consonants: Preliminary Observations, Harvey M. Sussman, Peter MacNeilage, and Robert J. Hanson: 16, September, 397-420.

Patterns of Tongue Contact in Normal and Lisping Speakers, Robert E. McGlone and William R. Proffit: 16, September, 456-473.

Reflex Contraction of Middle-Ear Muscles Secondary to Stimulation of Laryngeal Nerves, Gerald N. McCall and Daniel D. Rabuzzi: 16, March, 56-61.

Relationship of Lingual and Intraoral Air Pressures during Syllable Production, W. S. Brown, Jr., Robert E. McGlone, and William R. Proffit: 16, March, 141-151.

Articulation Disorders

Patterns of Tongue Contact in Normal and Lisping Speakers, Robert E. McGlone and William R. Proffit: 16, September, 456-473.

Prevalence of Speech Problems in Junior and Senior High Schools, Susan Kay Gillespie and Eugene B. Cooper: 16, December, 739-743.

"Same" and "Different" Concepts and Children's Performance on Speech Sound Discrimination, Barbara Beving and Roy E. Eblen: 16, September, 513-517.

Short-Term Memory and Language Skills in Articulation-Deficient Children, John H. Saxman and Jon F. Miller: 16, December, 721-730.

SPEECH AND VOICE SCIENCE

Acoustic Characteristics of Speech Produced without Oral Sensation, Yoshiyuki Horii, Arthur S. House, Kung-Pu Li, and Robert L. Ringel: 16, March, 67-77.
The Development of Auditory Feedback Monitoring: Delayed Auditory Feedback Studies on the Vocalizations of Children Aged Six Months to 19 Months, N. Fargo Belmore, Diane K. Port, Richard L. Mobley, and Violet E. Goodman: 16, December, 709-720.
Ease of Articulation: Conflicting Results, Raymond G. Daniloff: 16, December, 753.
Forward Coarticulation of Velar Movement at Marked Junctural Boundaries, Michael McClean: 16, June, 286-296.
An Interpretation of Jaw Acceleration during Speech as a Muscle Forcing Function, James H. Abbs and Ronald Netsell: 16, September, 421-425.
Kinematics of the Chest Wall during Speech Production: Volume Displacements of the Rib Cage, Abdomen, and Lung, Thomas J. Hixon, Michael D. Goldman, and Jere Mead: 16, March, 78-115.
Labial and Mandibular Dynamics during the Production of Bilabial Consonants: Preliminary Observations, Harvey M. Sussman, Peter MacNeilage, and Robert J. Hanson: 16, September, 397-420.
Oral Sensation and Perception in Apraxia of Speech and Aphasia, John C. Rosenbek, Robert T. Wertz, and Frederic L. Darley: 16, March, 22-36.
Orosensory Perception, Speech Production, and Deafness, Milo E. Bishop, Robert L. Ringel, and Arthur S. House: 16, June, 257-266.
Patterns of Tongue Contact in Normal and Lisping Speakers, Robert E. McGlone and William R. Proffit: 16, September, 456-473.
The "Phonemic" Content of Backward-Reproduced Speech, John W. Black: 16, June, 165-174.
Relationship of Lingual and Intraoral Air Pressures during Syllable Production, W. S. Brown, Jr., Robert E. McGlone, and William R. Proffit: 16, March, 141-151.
A Strain Gage Transduction System for Lip and Jaw Motion in Two Dimensions: Design Criteria and Calibration Data, James H. Abbs and Bruce N. Gilbert: 16, June, 248-256.

STUTTERING

Clustering: A Characteristic of Preschoolers' Speech Disfluency, Ellen-Marie Silverman: 16, December, 578-583.
Comment on "Effect on Stuttering of Changes in Audition," Edward G. Conture: 16, December, 753.
Do All Stutterers Adapt?, Sister Charleen Marie Bloom and Franklin H. Silverman: 16, September, 518-521.
The Effect of Interposed Conditions on the Consistency of Stuttering, Alida Seidel, Rona B. Weinstein, and Oliver Bloodstein: 16, March, 62-66.
The Effect of Reduced Reading Rate on Stuttering Frequency, Martin R. Adams, Jeffrey I. Lewis, and Thomas E. Besozzi: 16, December, 671-675.
The Effects of Stuttering on Systolic Blood Pressure, Barbara Dabul and William H. Perkins: 16, December, 586-591.
The Grammatical Factor in Childhood Disfluency in Relation to the Continuity Hypothesis, Helaine Gewirtz Helmreich and Oliver Bloodstein: 16, December, 731-738.
The Influence of Preschoolers' Speech Usage on Their Disfluency Frequency, Ellen-Marie Silverman: 16, September, 474-481.
Personality, Improvement, and Regression in Stuttering Therapy, David Prins and Michele Miller: 16, December, 685-690.
Prevalence of Speech Problems in Junior and Senior High Schools, Susan Kay Gillespie and Eugene B. Cooper: 16, December, 739-743.
A Program for the Initial Stages of Fluency Therapy, Richard A. Culatta and Herbert Rubin: 16, December, 556-568.
A Reply to Conture's "Comment on 'Effect on Stuttering of Changes in Audition,'" M. E. Wingate: 16, December, 754.

Spontaneous Recovery of Nonstutterers' Disfluency following Adaptation, Franklin H. Silverman and Sister Charleen Marie Bloom: 16, September, 452-455.
Stuttering Consistency in Varied Contexts, C. E. Hamre and M. E. Wingate: 16, June, 238-247.
Stuttering and Disfluency as Two Reliable and Unambiguous Response Classes, James D. MacDonald and Richard R. Martin: 16, December, 691-699.
Use of Revision by Elementary-School Stutterers and Nonstutterers during Oral Reading, Franklin H. Silverman and Dean E. Williams: 16, December, 584-585.

VOICE DISORDERS

Acceptability Ratings of Normal, Esophageal, and Artificial Larynx Speech, Suzanne Bennett and Bernd Weinberg: 16, December, 608-615.
Prevalence of Speech Problems in Junior and Senior High Schools, Susan Kay Gillespie and Eugene B. Cooper: 16, December, 739-743.

OTHER

Acceptability Ratings of Normal, Esophageal, and Artificial Larynx Speech, Suzanne Bennett and Bernd Weinberg: 16, December, 608-615.
Auditory Perception of Rhyming in Kindergarten Children, June D. Knafle: 16, September, 482-487.
Comment on "Stability and Validity of Two Measures of Intelligence Used with Children Whose Language Development Is Delayed," Janet Kresheck: 16, June, 319.
Communication Skills in Five-Year-Old Children with High-Risk Neonatal Histories, Carol H. Ehrlich, Esther Shapiro, Bud D. Kimball, and Muriel Huttner: 16, September, 522-529.
Effects of Communication Failure on Speaker and Listener Behavior, Thomas M. Longhurst and Gerald M. Siegel: 16, March, 128-140.
Glottal Cues for Parent Judgment of Emotional Aspects of Infant Vocalizations, A. R. Mallard and R. G. Daniloff: 16, December, 592-596.
Perceiving Syllables and Remembering Phonemes, Ronald A. Cole: 16, March, 37-47.
A Reply to Kresheck's "Comment on 'Stability and Validity of Two Measures of Intelligence Used with Children Whose Language Development Is Delayed,'" Paul S. Weiner: 16, June, 320.
"Same" and "Different" Concepts and Children's Performance on Speech Sound Discrimination: Barbara Beving and Roy E. Eblen: 16, September, 513-517.
Some Correlates of Speech Coding in the Short-Term Memory of the Deaf, R. Conrad: 16, September, 375-384.
Speaking Rate: Effects on Children's Comprehension of Normal Speech, Mary D. Berry and Robert L. Erickson: 16, September, 367-374.
The Standardization of Tests: Criteria and Criticisms, Paul S. Weiner and William C. Hoock: 16, December, 616-626.
